CONCLAVE SACRED COLLEGE BEGINS ITS SESSIONS

Ford's Proposal Submitted Congress by Secretary Weeks

NEW APPROPRIATIONS TO FOLLOW IN EVENT LEASE IS APPROVED

(By Associated Press) WASHINGTON, D. C., Feb. 2.—Henry Ford's proposal for the government projects at Muscle Shoals, Alabama, was submitted to congress today by Secretary Weeks for "such action as congress may deem appropriate." The only suggestions contained in the letter of transmission related to specific clauses in the contract and the desirability of amendments which would, in the event the proposal is accepted by congress, further safeguard the government's interests. "In the event Mr. Ford's proposal is accepted, the government then must make new appropriations amounting to from \$40,000,000 to \$50,000,000, of which Mr. Ford will have the benefit for approximately 100 years at 4 per cent," said Weeks.

In the event the offer is rejected, the secretary gave it as his opinion that dam No. 2, "Wilson dam," should be completed by the government and the power requirements for commercial purposes and benefits to navigation, as well as possible needs of the government, would warrant this expenditure. "If this were done," he continued, "the government may itself undertake to sell the product to the best advantage."

OBSERVANCE OF LINCOLN BIRTH FEBRUARY 12TH

The Republicans of Nye county will pay honor to the memory of Abraham Lincoln at a dinner to be served at the Mirpah hotel February 12, the anniversary of the birth of the martyred president of the United States.

Plans for this gathering were decided upon this morning, and it is proposed to make the event one that will instill a spirit of patriotism and bring together the Republicans of this county that they may work in unison during the fall campaign in an effort to elect a full Republican ticket this fall.

Abraham Lincoln was president of the United States when Nevada was admitted to the union on October 31, 1864, and it is but fitting that we observe not only the birth of this great and good man, but the birth of the state. It was Nevada which saved this country from financial ruin following the Civil war, and it was Abraham Lincoln who saved this country from division, so why should not the two events be observed at one and the same time?

An invitation is to be extended to J. L. "Jim" Butler, the daddy of Tonopah, who now resides at Big Pine, California, to be an honor guest at the observance of this great and good man's birthday anniversary. Mr. Butler is a staunch Republican and a great admirer of the lamented president.

PERILOUS TRIP OF SILVERS IS NOW A MEMORY

Albert Silvers, superintendent of milling of the Tonopah Belmont Development company and its auxiliary, accompanied by his wife, arrived in Tonopah last night after one of the most hazardous auto trips that falls to the lot of the average motorist. Mr. and Mrs. Silvers walked 12 miles on the Lida road when their auto became stalled in the deep snow on Monday. They were on their way from Los Angeles to Tonopah, and had reached a point 12 miles north of Rae's camp at Jackson mountain when their car refused to go further. Not knowing that they were closer to Goldfield than Rae's camp, and having a trail broken behind them, they walked back and stayed there all Monday night.

Mr. and Mrs. Silvers were found on Tuesday by J. J. Collins, who took them into Goldfield. On the long hike Mrs. Silvers had covered the 12 miles through deep snow in low-cut shoes, and was nearly exhausted upon reaching Goldfield. (By Associated Press) ROME, Feb. 2.—The conclave of the sacred college, which is to choose the successor to Pope Benedict, began its sittings today. Fifty-two cardinals who are in Rome went into seclusion last night, and when the great oak barrier at the entrance to the courtyard of St. Damazo was closed, they were cut off from communication with the outside world, until their task is done. Balloting is not expected to continue for over two days starting probably Friday morning. The next pope, it is believed, will come from the moderate section of the sacred college.

Crowds gathered today in St. Peter's square to watch for the tolling smoke wreaths from the chimney of the statue chapel where the conclave sits. A halloo is taken on the morning and evening of each day the conclave is in session, these smoke puffs being the only indications to the watchers as to the progress being made. When no election is effected a little straw is burned with the voting papers, causing the smoke to assume a dark color. When the choice finally is made the ballots, burning alone, emit thin wisps of light smoke.
